Forest Fires Noor Petersburg, Va. PETERSBURG, VA., April 19.—The forest fires which have been raging in this vicinity for the tweek have become uncontrollable. The flames and smoke are plainly vice the here. Barns and stables in large ambers have been destroyed and in many instances farmers have lost all their crops. Horses, forming implaments and a number of mers have lost all their crops. Horses, farming implements and a number of cabins have been burned, occupants barely escaping with their live. The destruction of controod and their is immense. In the George capity the fire has been very destructive, invading orchards and destroying hundreds of fruit trees. It is feared that unless heavy and early rain occurs the fire will destroy the Railroad bridges and telegraph poles, thereby impeding and telegraph poles, thereby impeding travel and cutting off telegraphic com-

Frank Lestie's Will.

The contest of the will of Frank Leslie was continued yesterday with the cross-examination of Alfred Leslie. Many questions have been put and answered as to the social relations of Mr. and Mrs. Leslie which have been apparently irrevelant, but it was remarked that ex-Judge Fullerton did not object but gave the widest latitude to such in quiry as if he were willing to have that subject thoroughly gone into. During the cross-examination, which lasted all day, Mr. Aifred Leslie in answer to Mr. Fullerton's questions said, "The second disagreement I had with my father was when I took my brother's side in the suit brought against him by father to restrain him from using the name 'Frank.' I made an atadavit in the case, and when I called a father's house he met me and shook hands with my wife, but refused to speak with me, and I afterwards understood that the cool ness was on account of the affidayit I had made. I do not remember ever testifying that my father kept two ed into the matter they would find that fraud had been committed. I do not recollect swearing that he had other property put out of their reach with the intention of cheating his creditors. I testified to the value of his business. After my father's death I put my arm on Mrs. Leslie's shoulder and told her that I would atone to my dead father by looking out for his widow's best interests. I also kissed her after leaving my father's grave and said that I wished to be her friend.

A large number of letters were introduced for identification. Juage Fuller ton read two of them written by Mr Leslie, in which he spoke of the man ner in which his sons had treated him and laid his financial disaster to them The case goes over until Tuesday.

INKSLINGERS IS CONVENTION.

The Southern Fress Association. Atlanta constitution April 16.

The convention of the Southern prese association which met here yesterday pursuant to the call issued some time ago, was not large as to numbers, but was thoroughly representative. More-over, it was essentially a business meeting. It was called for the purpose of improving, if possible, the tele-graphic news service, and to that end gentlemen who had responded to the call seriously addressed themselves They were met here by the Hon Erastus Brooks, chirman of the executive committee of the New York associated press, and Mr. J. W. Simonton, the executive officer. These gentlemen were invited to join in the deliberations of the meeting, and their conference with

the members of the association was full-free, harmonious and satisfactory.

The most important result of the meeting will be the immediate increase in the news service sent South by the New York associated press. This in-crease gives an addition of one thousand words daily to the telegraphic service. In other words, the Constitu-tion and the New Orleans press will print fifty-eight hundred words of tele-graphic news daily, while other south-ern papers will print forty-eight hun-dred words.

It was determined, also, to reorganize the Southern press association on a permanent basis, and with that end in view a committee has beep appointed to procure a charter covering the operation of the permanent organization. Other matters were discussed, but these will be found in the report of the proceedings printed elsewhere. The reorganization is to be upon a business basis altogether, and future meetings of the association will be of a purely

The hay began to move with much deliberation, and there was slowly ele-vated a long, wide fan, which went to

the rear to serve as a tail.
"That at imal," said its proprietor,
Charles Reiche, "is an ant-bear."
The bear rose on its legs, showing a
wonderfuily elongated and narrow
head. It is thickly covered with long coarse hair, which on the tail is half way between the filaments of a heavy plume and the sticks of a fan. The tail is used by the bear with commendable ingenuity as a blanket, being for that purpose brought around a half-circle and spread just sufficiently to entirely cover the body. Besides serving as a cover for warmth, it hides the animal. Hunters, not accustomed to the forests of Brazil, which the ant-bear inhabits, step on it without knowing it is a curi osity. The color is brown, washed with gray on the head and face, and interspersed with pure white hairs on the hinder limbs. The throat is very black, and a long triangular black mark cross es the animal from the throat, passing this party over the shoulders. obliquely over the shoulders. Mess end of the tail the bear is just a trifle more than six feet in length. The head alone is one and one-half, and the tail two-feet iong. The bear has four toes on the fore-feet and five on the hinder feet. The claws on the fore feet are extremaly long and curved, and of no use n walking. They are used as a means f defense against stronger animals. It they once are implanted in the flesh of a human being the wound is apt to prove fatal They are apt also not to come out, so that the dying man can kill the bear if he desires to. The bear turned its claws inward upon a thick. ough palm and walked on the outer edge of the fore-feet in a lazy, awk ward namer to a box two feet away. The only indication of intelligence it displayed was the scraping away the straw for a bed. It cannot walk long. The bear came from Para by the schoener Thomas Williams. Its owner, Mr. Reiche, has had a standing offer for the last ten years, to all the captains sailing from New York to Brazil, to pay a good sum for a live ant-bear, and this animal is the only live one ever brought o the United States. Captain Edward secured it while it was sleeping, which it is very capable of. Mr. Reiche is ne-gotiating to self it to the German zo-

den in the world possesses a live ant-bear. The London garden could keep one for only a week. It died in the garden.

Mr. Reiche feeds the bear with extremely finely-scraped beef, mixed with eggs and sugar, Every schoolboy, particularly it he had read Mayne Reid with proper diligence, remembers the picture of the ant-bear sweeping up a thousand live ants with a tongue nearly two feet long. This tongue, which is covered with saliva, is a most effective ant-trap. Mr. Reiche fed the bear while the World man was present. At first it did not take kindly to the change of diet, and a basin of ant eggs oaked in luke-warm water was brough The bear ate half of the meal by lapping up the eggs much the same as dogs eat Turning to the dish of scraped meat it placed the tip of its long tongue on the plate and returned it to its mouth without partaking of the food. The bear then stood upon its feet, and leaning its head down vertically, spread its tongue over the straw and made a shrill noise like a tin whistie, and hobbled back to its bed.

Two Cent Postal Card.

It seems after all that we are to have the double postal card. The bill providing for a two cent card has been favorably reported by the House Committee on Postoffices. In the Fall of 1876, Messrs. Odell, Ragan & Co., of this city, employed a Mrs. Leatherbury, in the city of Baltimore, to take charge of their new department in dress and cloak making, taking her spen recommendation that she was first-class and proficient in her branch first-class and proficient in her branch of business, cutting and fitting, which, upon a trial of three months, they found her not to be as per testimony of many of our most fashionable ladies for whom she did work, so much so that O. R & Co. found at the control of three months, to discharge her or lose many of their best customers, having taken her, as they allege, for the space of time while she gave satisfaction to them and to herself, at an expense to them of about seventy-two dollars per month, or more. Mess King, Parnill, and Ruffla, and for the defense Messrs. Staples and W. J. Montgomery. Piles of testimony for and against Mrs. Leather-bury, were secured in Baltimore, by col. Staples, and citation after citation from Piles of books and authorty, on both sides are brought to bear. What has lent great interest to this case, has been the throng of ladies who have attended each session of the courts since its opening, occupying about, or more than half the large sitting accomodations of our fine court house Such a case is not on record in the courts of Guilford, in which the ladies have had a chance to see how hand somly, their sex their style, their fash ions, and whims are described by the gentlemen of the bar. To-day, the son-in-law of Judge Dillard, Mr. Pannell, made a most desperate effort in behalf of his client, Mrs. L. in remarks to the point, and not for about two and to the peint, and not for about two and a half hours expatiating on the styles custume and dress of the ladies, and showing how hard they are to please. Chicago Tribune. It was stated in the Tribune of Sun day that Mr. W. H. Osborn, President, and James C. Clark, General Manager of the Chicago, St. Louis and New Orleans Railroad (New Orleans branch of the Illinois Central), had arrived in this city from a tour of inspection over their road. It now transpires that this tour of inspection had more than ordi-nary significance, and may eventually prove of great moment to this city as well as to Cincinnati. Before the Louisville and Nashville scooped in the Louisville and Nashville scooped in the principal Southern reads, all the business that went over the Nashville and Chattanooga Road from Nashville to New Orleans passed over the Chicago, St. Louis and New Orleans Railroad. Under the present condition of things, the latter road cannot hope to get any the interest from Nashville to New Orleans business from Nashville to New Or-leaus, the management of the Louis-ville and Nashville carrying all of it via Montgomery. In order not to be despoiled of this business, the Chicago, St. Louis and New Orleans Railroad propeses to make common cause with the Cincinnati Southern, the former to build a line from Jackson, Tenn., to Nashville, and the latter from Knox-ville to Nashville. Such a line would enable the Chicago, St. Lonis and New Orleans Railroad to maintain the businers enjoyed heretofore, and make this line, as well as the Cincinnati Soutnern entirely independent of the Louisville and Nashville combination. The offi cers of the above roads are still en-gaged in considering the project, and the prospects are that the extension will be made. If it is done it will be a serious blow from the Louisville and Nashville, and both Chicago and C neinati win have good reason to rejoice.

A MILLER WHO WORKS MIRACLES Said to Heal the Afflicted by the Mer-Touch of his Hand.

For some weeks past the people of Scott county, Va. have been terribly excited over the miracles which are alleged to have been performed by Richard Miller, of that county. His fame has extended all over that section of the State and hundreds of the tion of the State, and hundreds of the afflicted are daily visiting him. Milier is a middle aged man, employed as the keeper of McMullins't mill, near Estiliville. He is deeply religious, and claims to have had a dream a month ago in which the idea was impressed upon him that, that with God's help, he could perform wonderful cures simply through faith. He says that the next day after the dream, after fervent prayer, he healed a sick man by touching him. The intelligence of such a miracle went all over the country, and the afflicted of all kinds came to him and were healed, it is said, by the simple touch of his hand. Yesterday G. N. Wertz, a photographer at Abindgdon, visited Miller in company Abindgdon, visited Miller in company with a paralytic uncle, the seat of paralysis being in the mouth, and the man thereby was deprived of both speech and hearing. Miller looked at the afflicted man, and after a short prayer, touched him and told him that before he reached home he would be well Last night, as Mr. Wertz entered the door of his house, it is said that his hearing and speech came hack to

him, and to-day be is apparently hale and hearty. Miss Irene Newton, a beautiful young lady of Bristol, Tenn., helpless from rheumatism, was brought to Miller hast week, and when an attempt was made to lift her in the carriage, she rose from the sedan chair without assistance. It is said, and declared that she was entirely well. One of the most wonderful of the alleged miracles of Miller was the cure of Mr. Peter Whitesell, who has been for some years affleted with cancer. The cancer was touched and in three days, according to reports, had disappeared. The miracle worker is an exceedingly modest man, and slways indignantly declines any compensation for his serveces, alleging that he is but the humble instrument of God. He takes no credit to himself, and the people in his section believe firmly in his miraculous powers.

Cenons Eoume OFFICE SUPERVISOR, 2d. DIST. N. C.

The Act of Congress, March 3. 1879, makes it the duty of the Supervisor "to designate to the Superintendent of Census suitable persons, and, with the consent of said Superintendent, to employ such persons as enumerators within his district, one for each subdivision and resident thereign.

WHO SHALL BE SELECTED SOLELY WITH REFERENCE TO THEIR FITNESS." Then the instructions to Supervisors

The appointments should be made with reference to physical activity, and to aptness, neatness, and accuracy in writing and in the use of figures. These requirements are scarcely more in the interest of the Census than in the interest of the enumerator himself Un-less the officer appointed be fairly pro-ticient in all clerical exercises, he will find his duties very trying and his pay very meager. To appoint old or broken men to this duty (as Supervisors will, on all sides, be pressed to do) would not be an act of charity but of cruelty.

The Census requires active, energetic men, of good address and readiness with the pen. Only such can do the work with satisfaction to the Government or profit to themselves. Now, in order to test the qualifica-tions of the applicants as to their fit-ness when measured by the above instructious, a certain number are selected, to whom is sent circular letter 7-259 requiring a new application in his own handwriting, setting forth certain facts relating to his education, business

experience etc, etc.

When this is received, the Supervisor determines as to "the fitness" of the applicant, and, if he is of the opin-ion the applicant will "do the work well," he recommends and the application is sent on to the Superintendent for approval, when the Superintendent endorses on the application 'approved," then it begins to look as though the appointment is made, but not so, a commission has to be issued and the enumerator has to take an oath, when that is done the enumerator is "appointed." But to say that the selections of the Supervisor and even the sending out the circular letter mentioned is a sure indication that the applicant will be appointed, is looking a little further into the future than the Supervisor can penetrate with his

optical vision,
When the list is complete and approved by the Superintendent, it will be published officially. None other is entitled to credit. Respectfully, JOSEPH H, CARDWELL,

Chief Justice W. N H. Smith. We clip the following from the Philadelphia Record: Chief Justice Smith, of the Supreme Court of North Carolina, has just given a decision in a will case which lays down sound and whole some principles of testamentary law that had almost become forgotten in the new and revolutionary doctrines nnounced from the Bench of late years Notwithstanding the great liberality and tenderness of the law in regard to instruments operating after the death of the maker, it is generally true, as the minstrels wittly say, that "wherever there's a will there's a lawsuit." So customary is it to contest these instru-ments that it seems almost useless for man to undertake to make a will at all; since, however sensibly it may be drawn, and no matter how fair and equitable may be the disposition made of the estate, somebody or other will be quite sure to attempt to upset it if the mount involved is in any way considerable. Grounds for disputing the validity of wills are now alleged which were utterly unknown to the jurispru-dence of the last generation, and which would have made the hair of the very wigs of the old-time Judges bristle with

stonishment.
The gist of Judge Smith's opinion, which is very erudite and forcible, is that the law does not require that persons should be able to make a disposi-tion of their property with judgment and discretion in order to the validity of such disposition. It is enough if they susceptibility to undue influence, how-ever clearly shown, vitiate an instrument operating either inter vivos or af-ter de th, unless it was induced by fraudulent practices.

The Tobacco fly and how to Fight it. "The cold, windy weather of the last few day has had the effect to check the growth of the tobacco plants in the beds, and the depredations of the flies or bugs have become more noticeable A farmer mentioned to us yesterday : plan he thought of trying to free his plant beds of these insects, which others had tried with success. It was to select a hen with young chickens and confine her in a coop on the border of the plant bed, so that the little chicks could wander among the plants and pick off the bugs. We never before heard of this mode of extermination, but it strikes us as being worthy of a trial. It is well known that a flock of turkeys turned into a tobacco field are most efficient wormers, and with their keen eyes and sharp bill will pick the tobacco worms off cleaner than a man would.

The Democratic National Convention

The Price of Board Etc. Although over two months intervene before the Democratic National Convention, yet many of the delega-tions have secured their quarters, and the hotel people are already con-sidering their ways and means for pro-viding for the thousands of visitors the great event will attract. The Cincinnati Gazette has the following notes

about the convention:
"The National Committe will be entertained at the expense of the citizens Their transportation bills will also be paid. It is estimated that the expenses of the convention will be from \$12,000 to \$15,000. The money has already been subscribed. There are now three hundred and fifty rooms in the Gibson, and sixty more are being fitted up. It is likely that the will be known as the principal headquarters for the Southern delegations. The general rate per day at all the leading hotels will be four dollars, irrespective of the location of rooms. DIVIDED DEMOCRATS.

Democratic Dissensions in the North. Philadelphia Times.

As in New York, the efforts to harmonize Democratic differences and heal dissensions in Pennsylvania seem to have failed. The basis of harmony proposed in Pennsylvania was that all contests for seats in the coming State Convention be referred to Messrs. Bullitt, Dill and Welsh, three prominent party leaders. The effort to arrage the work of the convention in advance, unwork of the convention in advance, under the cover of a compromise, was
suspected to be a scheme of the defeated faction to obtain by diplomacy what
they failed to get by contest. This suspicion had very good ground to rest
upon, and that, perhaps, accounts for
the failure of the plan. If both the
factions are willing to submit to the
miphity what need is there for any
com, romise? Each faction claims to
be certain of a majority in the coming
convention, but the indications are that
the anti-Tilden men will control it. It
depends, however, upon the Philadel-

depends, however, upon the Philadelphia delegation. Should the "regulars," as they are called, be admitted it will at Senator Wallace a majority; should the contesting or l'ilden delegation get n then the Randall-Tilden wir g will win. The movement in fa-vor finstructing the delegation to Cin-cunsti for General Hancock is devel-oping considerable strength, and its ef-

fect is to weaken the Tildenites. The opponents of Tilden are not tighting for any particular candidate; they seek only to beat Tilden. Therefore they are willing to endorse Hancock, and the movement does not hurt their side of the contest, while it is drawing support from Tilden.

Should the statement contained in our Philadelphla dispatch, that Mr. Tilden has determined, in consequence of failing health, to withdraw from the canvass prove correct—and there is scarcely any doubt of its reliability—there will not only be a very decided change in the Democratic slates of Pennsylvania and New York, but a very great if not the only real obstacle to harmony in the Democratic party of the Union will be removed. With peace restored between the Tilden and to harmony in the Democratic party of the Union will be removed. With peace restored between the Tilden and anti-Tilden wings of the party in New York, there will be nothing to prevent the National Democracy from cordisally uniting upon a standard bearer who will lead them to assured victory. The discord that has marred the councils and discouraged the hopes of the party, has been purely of a personal character, involving no principles of political faith.

In principles, in devetion to heart constitutional government, and opposition to Radical corruption, usurpation and consolidation, the Democracy North, South, East and West is a unit, and with either Bayard or Field as their candidate for President in the coming election, would carry the country and cover Radicalism with such a defeat as would know no resurrection.

Jarvis as a Campa gner.

Durham Recorder. A singular impression has possessed some minds that this gentleman may be found wanting in those essentials of speech necessary to enable him to cope with the formidable opponent supposed to be at the command of the Republican party in the coming campaign. ever he may be, we have no fear for our champion.

The apprehenhion is utterly inconsistent with the political career of Goy Jarvis. His rapid elevation to his present dignity is due as much to his gifts of oratory as to that admirable skill in organization which developed itself in the local politics of his county and in those adjoining, through which he raised his party from a humiliated and apparently hopeless minority to a dominant and permant majority. His elequence may not be of that brilliant, impassioned kind which carries an audience by storm, or captivates it by beauty of language or richness of illustration. But it is of that kind which reaps lasting fruits by conviction of judgment through force of argument and clearness of views—an elequence which appeals to the judgment of that large class of hear rs in whose practical minds good common sense is the cal minds good common sense is the ruling element.

Gov. Jarvis is strong in the very plainness of his speech, because that plainness is the evidence of his earnestness, seeking to convince by the pow-ers of reasoning and the copiousness of information rather than win its way by splendor of diction, heat of passion, or brilliancy of imagination. Yet it were an error to suppose that he is deficient quires, or in the sharper weapons of piquant humor, of the more popular

W. A. Smith, when he slunk away from the conflict in the last campaign where he encountered Gov. Jarvis in the West, had reason to rue his error when he believed he had met one not able to cope with him in the weapons of

All fears on this point are absolutely idle. Gov. Jarvis has not reached his present elevation by accident, nor by favor, nor yet by trick. He was won his way by honest hard work, as much by speech as in any other way, and has convinced all his listeners that these honors were honestly and worthily won.

Eugenie's Sad Voyage.

London Standard, March 16.

The Empress Eugenie left Southamp-ton yesterday for Zululand. On alightton yesterday for Zululand. On alighting from her carriage the Empress, who was dressed in deep mourning, was presented with a large bunch of violets by Sir Benjamin Phillips, whose arm she then took, and passing along the carpetel way was conducted on board the steamer Alexandra, lying at the same quay whence some years ago the Empress embarked on a visit to her mother in the Peninsuia. As she passed along the wharves all present uncovered, and the Empress, courteously bowing her acknowledgments, was evidently deeply moved by these attentions. Ehe Alexandra at once left the docks, and was followed by the steamer Sovereign, taking the ordinary steamer Sovereign, taking the ordinary passengers and their impediments, Three large cabins on the port side have been set apart and specially prepared for the Empress' use. The first opens from the main saloon, and forms a private boudoir, elegantly furnished. The walls are panelled in Japanese satin of a light green relieved by borders of the same material of a darker hue, with a cornice pricked out with gilt studs. a cornice pricked out with gilt studs. Beyond this is the sleeping apartment, in which are beds for the Empress and her maid, and this opens into a lavatory and bathroom. The main fittings are of mahogany, maple rosewood and electro-silver. The Empress on arriving on board went at once to her cabin, and having partaken of a light luncheon was joined by her friends, her leave-takings being of a most affectionate kind. She gave to M. Uhlmann her portrait, bearing her autograph, signed in bis presence. The imperial suit consists of the Hon. Mrs. Ronald Campbell, a young widow, who is going out to ena young widow, who is going out to en-deavor to find the grave of her husband who was Sir Eveln Wood's aid-de cump and was shot through the head on the Zlobane Mountain; Sir Evelyn Wood, who will accompany the Empress at the r quest of the Qu en; the press at the r quest of the Quen; the Marquis de Bassano, Dr. Scott, who was present when the body was found and embalmed the remains; Lieutenant Slade, an aril r/officers, who was an intimate friend of the late Prince Imperial; three men servants and two female servants. Captain Briggs, who was attached to the Prince Imperial's battery, has also left for Durban to made arrangements for the Empress' journey up the country.

When the bell of the steamship was rung to clear the vessel of strangers, the Empress came on deck, and standing at the head of the gangway ladder with the Marquis de Bassano kissed her hands to her friends who were now on board the Alexandra. She remain-

on board the Alexandra. She remained there as the small steamer got further and further away, and one of the last objects made out from the Alex-andra's deck was a black figure waving a white pocket handkerchief, in which now and then her face was buried.

SENATE. Senator Davis, of Illinois, from the Committee on the Judiciary, reported a bill to provide that whenever the circuit and district courts of the United States are held at the same time and place, there shall be but one grand and petit jury summoned to attend said courts at one and the same time. It provides that juries summoned for one court may serve in the other, but either courts may summon several panels if necessary. The bill was read the third time and passed.

Somator Maxey, from the Judiciary Committee, reported adversely on the bill for the relief of the State National Bank of Louisiana. Placed on the calendar. On motion of Cameron, of Pennsylvania, the Senate agreed to lay saide all pending and prior orders, and take up his joint resolution for the Commission to consider, and report what legislation is needed for the better regulation of commerce between the States. There was some discussion of this bill, but before any final action had been aken upon it the morning hour expired, and the Senate resumed consideration of the Geneva Award bill. Carpenter centinued his speech in support eration of the Geneva Award bill. Carpenter continued his speech in support
of the Committee bill, and reviewed the
arguments of Blaine and others in opposition to the payment of the underwriters. He was followed by Blaine, who
again attacked the bill and its defenders.

PHILADELPHIANS now demand the passage of a law prohibiting trapeze performances, since the almost fatal fall of a young female the other day at a circus exhibition. The young girl was nearly killed and it is doubtful whether she will recover.

THE time for Conventions draweth nigh. It is all important that good men be selected. Our foe is a sleepless one. They will put their best men in the field. Beware of men with bad records, they are always on the defensive when they should be the reverse.

OUR cotemporary of the Mt, Airy Times is quite jubilant over the breaking of ground on the Mt, Airy and of the Cape Fear and Yadkin Valley Railroad, and gives a full discription of the pro ceedings on that occasion. Our heart is with you in your joy-may the work go spedily on.

The present year started off with prices booming, every body was astonished, dealers were delighted and consumers grieved-Prices will doubtless be good during the summer. The reaction of the market is only a return from excitement to a normal state, in which all interests will likely thrive.

THE New Orleans Democrat is gloriful over the prospects of the early completion of the Texas Pacific Railroad. It is said that Jay Gould and Thomas A. Scott the big railroad magnates have signed a contract by which the railroad is to be built by the 1st of January, 1882, This road will be a big thing for New Orleans.

JAMES GORDON BENNETT will establish a chain of two-cent morning newspapers from N. Y. to the Pacific coast, Mr. John Russell Young will be the manager. The papers will, it is said, be backed by Mr. Bennett's capitai, will share in the Herald's telegraphic system and facilities, and will be, like the Herald, independent as to politics.

THE colleges of the country have been canvassed on the Presidential question, and if they are any test of public opinion, Blaine is the favorite candidate of the Republicans, and Bayard of the Democrats. A canvass of thirty-six colleges gives the following result: Blaine 2227, Grant 1408, Sherman 1014, Edmnods 301; Bayard 1116 and Tilden

WE learn from the Piedmont Press that the Supreme Court of South Carolina has rendred a decision in the Chester and York county bonds case, sustaining the validity of these bonds. This is said to remove the presure upon the Chester & Lenoir Narrow Gauge Railroad. This action will cause work on the road to begin again and it is hoped the completion of the same is not far distant.

THE unseating of Kellogg still agitateth the mind of the average Senator. Judge Thurman says emphatically that there was no agreement that the seating of Kellogg was made conditional on Mr. Butler's admission, If Mr Kellogg holds his seat fraudulently, he should be put out. We don't think a man should be allowed to hold a seat he's not entitled to because it is not politic to unseat him. Let justice be done.

THE North Carolinian seems to think that John Sherman, whom Bro. John idolizers, deserves all the the credit for having "mastered the complicated system of finance." THE Presidential boomers are booming. They stand as follows, Grant-Blaine, Edmonds. Tis said that the Presidential lightning will scarcely strike Mr. Sherman. The Grant men may get him nominated but it is evident that every day shows their fear of his probable defeat in November. The Republican polititians are waxing warmer and warmer. The Atlanta

Poverty and Distress.

That poverty which produces the greatest distress is not of the purse but of the blood. Deprived of its richness, it becomes seant and watery, a condition termed anemia in medical writings. Given this condition, and scrofulous swellings and sores, general and nervous debility, loss of flesh and appetite, weak lungs, throat diseases and consumption, are among the common results. Therefore, if you are a sufferer from thin, poor blood, do not hesitate, but employ Golden Medical Discovery which enriches the blood and radically cures those affections by striking at the root of the evll and re-

moving the cause.

For all bronchial, throat, and lung affections, severe lingering cough, weak lungs, consumption in its early stages, asthma and kindred affections, Dr. Pierce's Golden Medical Discovery is the soverign remedy, and has outrivaled all its competitors. It is harmless in any condition of the system, yet powerful to cure. Druggists sell it.

Mrs. Winslow's Soothins Syrup.

Rev. Sylvanus Cobb thus writes in Boston Christian Freeman - We would by no means recommend any kind of medicine which we did not know to be good-particularly for infants. But of Mrs. Winslow's Soothing Syrup we can speak from knowledge; in our own family it has proved a blessing indeed, by giving an infant troubled with colic pains, quiet sleep, and the parents unbroken rest at night. Most parents can appreciate these b.essings. Here is an article which works to perfection, and which is harmless; for the sleep which it affords the infant is perfectly natural, and the little cher-ub awakes as "bright as a button." And during the process of teething, its value is incalculable. We have frequently heard mothers say that they would not be without it from the birth of the child till it had finished with the teething siege, on any consideration whatever. Sold by all druggists. 25 cents a bottle.

REMEDISE ave Achieved the most noted success of any Medicines of Mouern

Times.

Messrs, Weeks & Potter have never doubted the specific properties of Cuticura, Cuticura Resolvent and Cuticura Soap, for the speedy, permanent, and economical cure of Humors of the El cd, Skin and Scalp. They are however, astonished at their universal success; for it was to be expected that in the hands of some they ould fail solely from spasmo ic or ignosant use of them ant use of them

They are enabled to say without fear of contradiction that no remedies ever achieved in the short space of one year the number of won erful c res performed by the CUTICURA REMEDIES.

Liver Complaint. And Dyspepsia Treated by the Re-

solvent, Gains 5 1-2 pounds on One Bottle. GENTLEMEN;-I have had Liver Complaint and Dyspepsia, with running sores on the side of my neck, forten years. Dectors did no good. I have been spending or eight years and it did me no good. Everything late distressed me. Igot reduced from 1.9 to 482 pounds. At last I tried the Resolvent and it helped me right off, and on one bottle I gained five and one-half pounds. It is doing the business, and I am going for it strong.
